SUMMARY

I am Uchenna Egbuedo, a software developer with hands-on experience in Laravel/PHP and the MERN stack, building e-commerce systems, VTU platforms, and applications for the agricultural sector. With a background in Human Anatomy and over 5 years of experience in education and the health sector, I transitioned into tech, driven by curiosity and a desire to understand how things work. I bring a strong analytical mindset, adaptability, and a genuine enthusiasm for exploring emerging technologies and new frontiers in software development.
